CHRONIC EFFECTS: Repeated exposure may cause irritation and sensitization
SIGNS & SYMPTOMS: Skin rash, reddening or eczema; breathing irritation or difficulty

SECTION 4: FIRST AID MEASURES

STORAGE: Store at 65ºF - 85ºF, out of direct sunlight. Keep containers tightly closed and upright when not in use. Protect against physical damage. Avoid breathing vapors and aerosols. Use only with adequate ventilation. Do not eat, drink or smoke in areas of use or storage. Assure that proper personal protective measures are taken when opening or entering confined storage vessels. PERSONAL PROTECTIVE EQUIPMENT (PPE):
EYES: Chemical splash goggles, safety glasses with side shields, or full-face masks are recommended.
SKIN: Chemical resistant gloves (rubber, nitrile, etc.), long sleeved shirts and long pants are recommended to avoid skin contact.
RESPIRATORY: None normally required under anticipated use conditions. A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister should be used in circumstances where airborne concentrations are expected to exceed exposure limits.

PROTECTIVE CLOTHING: Impermeable apron and rubber boots to prevent skin contact.

GENERAL HYGIENE PRACTICES: Remove contaminated clothing and wash before reusing. Do not eat, drink, or smoke while handling to avoid accidental ingestion of this material.
